

Alternative Automotive Technologies is a full service company from design, engineering, prototype and production of automotive vehicles to aftermarket performance products or full restorations for your car or boat and electric vehicles and medical equipment components.

Providing engineering services and niche vehicle design and manufacturing for the evolving automotive industry.

1st Annual Woodward Dream Cruise OPEN HOUSE Friday, August 20, 2010 Noon until 7:00 PM

1-877-9-TECHLINE
www.altautotech.com

You are invited to stop in and see our facility, meet our team, see a lot of hot cars and enjoy some food and drinks. On Friday August 20, on the eve of the 2010 Woodward Dream Cruise, Alternative Automotive Technologies is opening our doors to the public, to enjoy the spirit of the Motor City and see how we contribute to that passion. Stop in any time during the day on the way to Woodward or to enjoy some free food and refreshments during your lunch.

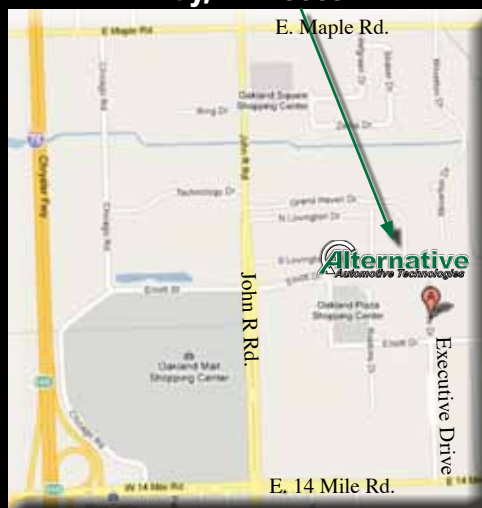

See in person, the vehicles we built for the Discovery Channel show, currently airing, **"Ultimate Car Build Off"** and meet the build team.

- We will have chassis dyno run demonstrations.
- Come see the U 13 Miss NYC Unlimited Hydroplane and meet the driver **CAL PHIPPS** while at work!
- See our new Haas VF9 mill and PPG paint system.
- Demonstrations of all our capabilities.
- Watch Supercharger installations, painting, and other service first hand.
- See the Dream Giveaway Corvettes and Mustangs that were built for charity and enter the sweepstakes to **WIN BOTH CARS!**
